TALIANS TROUBLESOME

'ere for Tearing Corpse and Authorities Apart When **Body** is Removed

New Orelans, La., Sept. 30 .- Drivng the body of a woman who died of rellow fever at Leeville, La., forty ailes from here, on the Gulf of Mexico. in a wagon with two revolvers stuck a his shirt front, as protection against r arned band of Italians, was the perience of Dr. Ralph O. Marcour. former surgeon of the United States Navy, who was sent to Lecsville by the state board of health,

An Italian woman died of yellow 'ever, and the whole country was up in arms, threatening to kill the husband he attempted to bury the body in the grave yard, a mile distant from the

All the lodgers were sallors and longshoremen. McMatum and Vaughn was nearly frantic with grief and fear, but Dr. Marcour arrived in time to reassure and quiet him. The loctor went down the road, saw the frightened countrymen with their shotguns, and tried to impress upon them that there would be no danger of infection from the body as it pass-ed on the road to the burying ground. The people were not to be convinced, and said that whoever attempted St. Petersburg, Sept. 30 -M. Witte to pass with a yellow fever corpse uld be slain.

Owing to the abset w of Emperor "All right," coolly answered Dr. Mar-Nicholas it is stated that the peace cour, "I'm going to bring that body through, guns or no guns. Dr. Marcour borrowed Father Jules

wagon and drove the conveyance to the woman's house. The body was Vicinburg Miss., Se.t. 30.—Twelve placed in a wooden box, and lifted new cases of yellow ever and two into the wagon, and the way to the cometery was taken. Alameda Bound for Honolulu ls in Hard Luck

San Francisco, Sept. 30.—The steam-er Alameda of the Oceanic Steamship Company's line, which started for Honolulu today, ran on the rocks a Ft. Point, on the southern side of Gold-

All of her passengers were landed in safety, and every effort is being made to pull the vessel from its dangerous position. The accident is at tributed to a heavy fog which prevail ed this forenoon.

An attempt was made late today to ighten the cargo of the Alameda. Lighters were placed alongside and work commenced, but the sea becan so rough that lines were confinuall snapping. The attempt was finally abandoned. The steamer lies in about the same position as when sh went on the rocks, and another effort will be made to float her at midnigh when the tide will be favorable.

STEAMER ON ROCKS SENATE AID **ENLISTED**

Correspondence of Mr. **Hood with Easterners Proving Effective**

ON JOINTURE

County Supervisors will Suggest that All Citizens Lend a Helping Hand

if there is one citizen in Bisbee who s doing his share in a quiet way to counteract the joint statehood movement at the approaching session of Congress, that man is J. T. Hood, cashler of the Miners & Merchants

Not along ago the Review had occaion to refer to Mr. Houd's efforts in this direction, and printed a letter from Congressman Tawney, 4 Minnesots, who is chairman of the mines and mining committee, who assured Mr. Hood and Thos. Bardon, one of the directors of the Shattuck & Arizona Mining company, that he could be depended on to vote and work against the joint statebood biil. Mr. Tawney will be a member of the party of Con-gressmen who will arrive in Bisbea on or about October 12.

In the meantime Mr. Hood has been pursuing his efforts in a little different direction, and has been engaged 'a correspondence with some of the banking houses in an effort to interest influential citizens in the several states on the side of Arizona against the joint statehood bill. Yesterday Mr. field, president of the National Park Bank of New York, the fourth largest institution of the United States, writes as follows

"New York, Sept. 25, 1905. J. T. Hood, Esq., care Miners & Mer-

chants Bank, Bishee, Ariz.:
"Dear Sir:-With further reference
your favor of the 16th ult., which has been brought to my attention upon my return from my vacation, I have taken pleasure today in acquainting four of my friends (United States Senators) with the substance of your promunication, and of ealisting for kindly co-operation along the line indiherein.

"Rest assured it is very gratifying "Yours very truly,

"RICHARD DELAFIELD President National Park Bank of New York." The Review understands that at the

next meeting of the Bard of Superviscan Smelting and Refining Company ors that body will pass a resolution requesting every citizen of Cochise County to get to work against the joint statehood bill. That much good can be done by citizens of this county by appealing to friends and business associates in the eastern states has been demonstrated. Congress will meet in December, and between now and then no stone should be left unturned to present the arguments of Arizona against joint statehood with New Mexico, where they will do tho most good.

Christian Church-Services will be operator at the Postal under Acting held at Library Hall today, Preaching Manager Neidermeler. The latter by the pastor, Daniel Trundle, morning will continue as manager of the local and evening. Subject, 11 a. m., "Mis-Manager Woelker having decided to "God's Wisdom vs. Man's Foolishtake an extended vacation because of ness." S. S. and C. E. services as usnal.

Duponts to Enter Colorado

Denver, Sept. 20.-Quite a stir was caused in financial circles Naples, Sept. 30.-Although three & yesterday when it became known that the Dupont Powder company weeks have elapsed since the earthquake, Calabria damage is not yet

has decided to establish a large powder mill in Colorado, and that it

will be located a short distance from Littleton. The company domfully ascertained. However, it is known that more than 160,000 people which will manufacture explosives on a large scale.

Colorado has long been one of the leading powder consuming states of the Union, because of the extent of the mining industry. Practically all of the powder used in the state is manufactured by the Dupont company, and is shipped here from the east. The company has realized that the Rocky Mountain region, with its Robert Rae, Douglas; W. P. Parkhurst, rapidly increasing development, will become the greatest powder con-San Fracisco; T. Van Culin, New suming section in the country, and it realizes that Denver is an ideal distributing point for their product.

With this realization came the determination to establish a large plant in this state. The conditions here are excellent, and the field is large enough to keep the plant working continually to meet the demand. The fact that the company has decided to establish a large powder mill in the state is a source of gratification to the boosters of the state. They see in this a new enterprise for R Colorado to point to and the employment for many men.
